

Technical Skills

Programming Languages & Frameworks: Python, JavaScript, Node.js

AI & Automation: AI Automation (n8n), AI Agents, Prompt Engineering, LLM Integration, Workflow Automation, RAG (Retrieval-Augmented Generation), Vapi, MCP server

API & Integrations: RESTful APIs Development, API Integration, Webhooks

Backend & Databases: MongoDB, MySQL, WebSockets, Server-Sent Events (SSE)

Soft Skills: Problem Solving, Effective Communication, Attention to Detail, Analytical Thinking

Experience

Torta, (UAE, Dubai)

Nov 2025 – Sep 2026

AI Automation Engineer (Freelance, Remote)

- Designed and implemented AI-powered automation solutions to improve business operations and reduce repetitive manual work.
- Automated lead management processes, including lead capture, organization, reminders, and timely follow-ups.
- Integrated APIs, webhooks, LLMs, and automation platforms to connect business systems and trigger actions automatically.
- Designed practical workflows for handling repetitive tasks and improving day-to-day operational efficiency.

Projects

AI Receptionist | AI Healthcare Voice Assistant

Jan 2026 – Jan 2026

<https://youtu.be/4ANk-fuJ5bq>

- Developed an AI voice receptionist for healthcare workflows using Vapi, n8n, LLMs, APIs, webhooks, and MCP servers.
- Built conversational flows to handle patient calls, answer FAQs, collect and validate patient information, and understand appointment requests.
- Designed appointment workflows for booking, rescheduling, and cancellation, with the architecture designed to connect with PMS/EMR systems through APIs.
- Implemented automated appointment confirmations and updates, reducing manual administrative work and scheduling errors.
- Created automation workflows in n8n to process requests, trigger backend actions, and handle appointment confirmations and updates.
- Designed human-transfer scenarios for requests that require assistance from clinic staff.

Barbershops | AI Voice Assistant

Feb 2026 – Feb 2026

<https://youtu.be/7yJtfv-b6WE>

- Developed an AI voice receptionist demo using Vapi and n8n to automate customer calls and appointment-related tasks.
- Designed conversational flows to answer questions about services, pricing, business hours, and availability while collecting customer details.
- Built automated workflows for new bookings, rescheduling, and cancellations, connecting the voice agent with scheduling systems through APIs and webhooks.
- Implemented workflow logic for handling different customer requests and transferring conversations to human staff when needed.

Education

COMSATS UNIVERSITY ISLAMABAD, VEHARI CAMPUS

Sep 2020 – June 2024

Bachelor of Science in Software Engineering

CGPA: 3.81/4.0
